## ABOUT Times Of Need

Times of Need was established for the care of vulnerable adults and those in need of assistance. We identify strongly with those in need of care and are also aware of the importance of the service.

Before the establishment of the organization the founders have worked in the Care industry for a combined number of more than twenty years. With extensive experience and a passion for providing care for those in need we have decided to establish a service provider for those in need.

Combining passion and professionalism Times of Need is established for those in need of great care by passionate and professional service providers.

# OUR Services

## Daily Personal Care

Our professionals take care of all the client's needs of a personal nature. With consistent regard for their dignity and independence this includes. Personal Hygiene, Oral hygiene, Continence management, skin care, bed changing and any other service which is specified and needed.

## Live-ins

We provide 24/7 of care and assistance for those in need of a consistent service from a trained professional within the comfort of their own home.

## Emergency Cover

When and if there's an emergency, we can provide a trained professional to cover on short- and long-term basis.

## Support Work

We help people with their daily lives according to their physical and mental health with their individuality considered at all times. Our professionals encourage independence and support clients to live their lives to their fullest potential while supporting them physically and emotionally at every step.

## Sit-ins

We provide professional Careers to relieve the careers and allowing to have a break when convenient.

## Assistance on Appointments

We will accompany clients on any medical appointments, exercise or therapy as well as any desired assistance needed according to our service.

## Meal Preparation

According to a healthy and balanced diet. We will Prepare meals tailored to the clients' desires, taste and preference.

## Shopping

We assist the client according to their needs and requests. Ranging from accompanying individuals to their desired stores and fulfilling their shopping lists if they are incapable of doing it or would rather not.

## Cleaning

We will clean as and when the client requests according to their needs and specifications.

## Personal Assistance

Our personal assistance services provide tailored support to help you with everyday tasks, based on your unique needs and preferences. From personal care and mobility assistance to help with household chores or accessing community services, we're here to enhance your independence while respecting your dignity and choices.

## Staffing Solutions

Our staffing solutions provide qualified, compassionate professionals to meet your social care needs. Whether short-term cover or long-term support, we ensure reliable, skilled carers are available to deliver consistent, person-centered care whenever required.

## Care Plan Formulation

Our care plan formulation process creates personalized plans based on your unique needs and preferences. We work with you to design a detailed approach that ensures the highest quality of support and promotes your well-being.

## Care Plan Audits

Our care plan audits regularly review and evaluate each individual's care plan to ensure it meets the highest standards. We focus on accuracy, consistency, and compliance to continuously improve the quality of care you receive.
